#### Successful completion of oversubscribed \$7.1 million capital raising

Synertec is pleased to announce it has received binding commitments to raise \$7.1 million (before costs) through a Placement of 71.4 million new shares at an issue price of \$0.10 per share, a 9% discount to the last closing price and the 5-day VWAP of \$0.11 on 30 July 2021.

Net proceeds of the Placement will be principally used to provide balance sheet support to fund initiatives which progress and scale the Company's expanding portfolio of ESG-focused technology for the energy sector and its rapidly growing portfolio of engineering solutions with its blue-chip customer base.

The Placement was corner-stoned by high quality institutional investors, Perennial Value Management and SG Hiscock, providing a strong endorsement for the Company.

*"Our successful capital raising will help us to continue to deliver on our strategy for targeted, diversified growth led by a stable of energy-focused, environmentally-friendly technologies which we are developing with our specialist engineering team and industry partners, and I thank all investors for their strong and loyal support of Synertec."*

Taylor Collison and PAC Partners acted as Joint Lead Managers ("JLMs") to the Placement.

Under the mandate with the JLMs:

Subject to shareholder approval, the JLMs may (at their election) choose to receive shares in SOP at the same issue price as the placement in lieu of some or all of the net cash fees due to the JLMs.
- Subject to shareholder approval, the JLMs will be issued 10,000,000 unlisted options with an exercise price of \$0.20 per option and an expiry date 3 years from the date of issue.
